BOONYAWEE THITITHAM

Frontend Developer

Profile Summary

A former quality inspector in a transcription project experienced in education, professional services and internet industries. I joined Generation's Junior Software Developer and learned to create a web application. I aspire to grow professionally in programming and strive for new challenges. I believe that my prior experience helps me to work well as a team and able to bring new perspectives to your company.

Experience

Software Development Learner, Generation Thailand

Online Bootcamp | May 2022 – August 2022

- Learn essential technical skills such as programming languages (HTML, CSS and JavaScript), libraries (Bootstrap and React) and tools (GitHub and Trello) full-time while working freelance after class
- Create projects such as Colmar Academy (responsive website) using HTML and CSS and Viv Application (exercise tracking application) where I practiced Agile to work with team, designed wireframe and implemented functions to the application
- Organize English learning space, lead sessions and coordinate between teams to help boost fellow learners' confidence in communicating in English

Quality Inspector, ByteDance

Freelance (Remote) | January 2022 – June 2022

- Ensure linguistic accuracy of data and implement quality standards to enhance precision of transcription
- Tackle 120 tasks per hour while remain 95 percent of accuracy rate
- Provide feedback for efficient labelling/transcription and weekly report to improve data quality

HR Manager, AIESEC in Thammasat University

Youth Empowerment organization Volunteer | June 2016–May 2017

- Identify member vacancies in 8 functions, recruit new members, filter out unsuitable applicants from 142 online applications, arrange the Assessment Center and conduct member orientation
- Analyze member data and prepare required reports in order to detect problems, solve them in time and improve performance quality
- Organize internal events such as training, local committee conference and Team Day in order to develop member proficiency and engagement
